## YST SERIES POWERED MONITOR SPEAKERS

CONCERT-QUALITY SOUND IN A COMPACT DESIGN

Yamaha's exclusive Advanced Active Servo and Active Servo Technologies generate incredible bass from small speaker enclosures. They are the ideal method of combining amplifiers and speakers for maximum performance. These systems intelligently adjust the negative impedance generation as the speaker moves, creating a hard, rigid cone that prevents deep resonant waves from leaking out of the cone. This means the full power of the wave is forced out through the air port, resulting in clear, powerful bass.

### Standard Bass Reflex Speaker

- 2 Air pressure decreases, resulting in weak, muffled bass
- 1 Pliable cone allows deep resonant waves to leak through

Results: ■ Weak, Muddy Bass  
■ Noticeable Distortion

### YAMAHA Advanced YST Speaker

- 2 Air pressure increases, resulting in tighter, cleaner bass
- 1 Rigid cone prevents deep resonant waves from leaking through

Results: ■ Clear, Powerful Bass  
■ Minimal Distortion

### YSTMS50B\* POWERED SPEAKER AND SUBWOOFER SYSTEM

The absolute in complete audio enhancement. The YSTMS50 will more than upgrade the sound system for any keyboard, synthesizer, PC, or audio player. Loaded with two incredible 20-watt satellite speakers and an immensely powerful 40-watt subwoofer thumping the deepest bass down to 30Hz. This system will be the last speaker system you buy – period.

\$149.99

### TRS-MS01 POWERED SPEAKER AND SUBWOOFER SYSTEM FOR TYROS

This state of the art speaker system was specifically designed for the Yamaha TYROS keyboard. Using Yamaha's Advanced Active Servo Technology, the TRS-MS01 produces incredibly crisp treble and thundering bass to enhance your keyboard performance. Two satellite speakers mount directly on the keyboard and the bass control knob on the subwoofer adjusts for the perfect spacious mix.

\$199.99

### YSTMS201B\* POWERED SPEAKER AND SUBWOOFER SYSTEM

Yamaha's most economical package features 2 brilliant compact monitor speakers coupled with an incredibly rich subwoofer. Bundled in a uniquely compact design, this system delivers 30 watts of total RMS power with high ends reaching 20kHz and the bass response down to 45Hz. This affordable 3-piece system includes a 6 1/2" bass driver in the subwoofer and an oval 3 3/15" x 1 3/4" full-range driver in each monitor enclosure.

\$59.99

### YSTM101B\* POWERED MONITOR SPEAKERS

Utilizing Yamaha's exclusive Advanced YST technology, this tight little bundle packs unbelievable sound and music reproduction into an incredibly affordable, compact package. Featuring 6 watts of total RMS power with full range and a 2 1/2" pure Spruce wood driver in each cabinet, its slanted baffled design helps display the stunning high end at 20kHz to the deep powerful low end at 80Hz.

## CARE PRODUCTS

Trust your instrument with a name that is synonymous with quality musical instruments. Yamaha has been making musical instruments for over 115 years. Making a guitar is an art form requiring a high level of sensitivity and deep dedication. Our craftsmen have honed their skills to perfection, and the results are obvious in the guitars they make. There are only a few craftsmen with this level of dedication found worldwide. These same craftsmen also require that only the best care products be used in maintaining their musical masterpieces.

### Shellac Finish Process

A single, micro thin coat is hand-rubbed on the Yamaha GC71 and left to dry before the next coat is applied. More than 3 months and 300 hand-rubbed coats later, this process results in a finish that is nothing less than priceless.

### GP4 GUITAR POLISH

When building the perfect guitar, a skilled luthier knows the importance of its finish. Yamaha's GC71 is luxuriously hand finished with an all-natural shellac applied in 300 individual layers – a process that takes over 3 months to complete. If our polish is good enough for the GC71...

\$6.99

### F02 FRETBOARD OIL

Your fretboard is made with the finest and most luxurious woods available. So why would you put a greasy, watered-down liquid on it? Trust it with the highest quality oils created specifically for fretboards. Our fretboard oil will maintain and even restore the healthy look and feel of your guitar.

\$5.99

### SC2 STRING CLEANER

Everyone knows that old strings become dirty, oily, and even corroded. With our string cleaner, you can prolong the life of your strings by clearing away all the dirt and grime that kill your tone and destroy your strings.

\$6.49

### PC10 UNTREATED POLISHING CLOTH

We recommend using only the proper care products when maintaining your instrument, which is why Yamaha polish cloths are untreated by choice. Using our untreated polish cloths with maintenance products like Yamaha polishes, oils, and cleaners will ensure your instrument's longevity, beauty, and performance.

\$3.99

### PCK PRO CARE KIT

If maintaining your instrument matters to you, do it with the right stuff. Yamaha guitar polish, fretboard oil, and untreated polish cloth are the tools you need. Keep your guitar free of dust, dirt, and grease to preserve its proper tone. Besides, shouldn't looks matter, too?

\$15.99

### DPCK DELUXE PRO CARE KIT

Looking for the entire package? Yamaha guitar polish, fretboard oil, string cleaner, and an untreated polishing cloth will ensure that your guitar stays in proper working order just like the day you bought it. Give your guitar a protective shine, preserve your glistening fretboard, and treat your strings to a tonally clean experience.

\$22.99

## GUITAR ACCESSORY KITS

The complete package for the acoustic or electric guitar player. Includes everything you'll need to start yourself down the road to musical enjoyment: Yamaha Guitar Method book, a spare set of Yamaha strings, Yamaha picks, an untreated Yamaha cloth, Yamaha guitar polish, Yamaha string winder, and an extra strong woven strap.

**GAKIT** Acoustic Kit (includes digital tuner) \$39.99

**EAKIT** Electric Kit (includes pitch pipe) \$39.99

## STRINGS

Demand the best! Yamaha guitar strings are built with three important tenets in mind:

- Tone – The perfect blend of proven materials creates a warm and rich tone.
- Consistency – Yamaha quality standards and precision equipment ensure a standard of excellence.
- Durability – Strings made by one of the finest in the business assure a long lasting and comfortable string.

Many of the world's finest Yamaha guitars are crafted and refined using Yamaha's select musical instrument strings. The same attention to quality is given to each and every string, as with all of Yamaha's instruments, making it the obvious choice for beginners and professionals alike.

### ELECTRIC

A contemporary classic! Nickel wound strings capture the rich, warm tone found only on the finest quality instruments. Offered in the three most popular and widely used gauges, these strings are used by some of the most demanding and innovative players today.

## Sound Reinforcement Handbook, 2nd Ed.

by Gary Davis & Ralph Jones

Sound reinforcement is the use of audio amplification systems. This book is the first and only book of its kind to cover all aspects of designing and using such systems for public address and musical performance. It features information on both the audio theory involved and its practical applications, from microphones to loudspeakers. This revised edition features almost 40 new pages and is even easier to follow with the addition of an index and a simplified page and chapter numbering system. New topics covered include: MIDI, Synchronization, and an appendix on logarithms.

## Guide To Sound Systems For Worship

by Jon F. Eiche

This book is written to assist in the design, purchase, and operation of a sound system. It provides the basic information on sound systems that is most needed by ministers, members of Boards of Trustees and worship and music committees, interested members of congregations, and even employees of musical instrument dealers that sell sound systems. To be of greatest value to all, it is written to be both non-denominational and "non-brand-name."
