Where do you want to go with your music?

Digital Workstation

Featuring perhaps the best piano sound in the industry, this comprehensive keyboard also boasts an impressive auto accompaniment function with incredibly dynamic backing parts. This all-in-one music production instrument gives you an amazing variety of high-quality, authentic instrument sounds, and lets you handle virtually any music style—perfect for onstage solo and group shows, as well as small-scale home party performances.

Recommended:
Tyros3/PSR-S900/PSR-S700/PSR-OR700/PSR-S550B

Portable Grand

For those who want even more performance, there's the YPG Series—giving you comprehensive auto accompaniment capabilities plus a variety of other sophisticated music making functions.

Recommended:
YPG-635/YPG-535/YPG-235

Digital Keyboard

Creative players of all ages—from the very young to the young at heart—will enjoy making their own music on these high-quality keyboards, with a wide range of exceptionally natural, realistic sounds and powerful auto accompaniment features.

Recommended:
PSR-E413/PSR-E313/PSR-E213/EZ-200

Digital Percussion

I want to enjoy the sound of real drums—and play anywhere and anytime I like... Authentic, dynamic drum sounds—sampled in stereo—that make you feel like you're playing a real kit!

Recommended:
DD-65

World of music direct to you

Our Internet Direct Connection (IDC) service links your Yamaha keyboard directly to the Internet.

■ Listening

If you have a Yamaha keyboard, you'll be interested to know it can make great music all by itself—even when you're not playing it. Simply connect it to the Internet via IDC—and tap directly into a huge library of music.

■ Playing

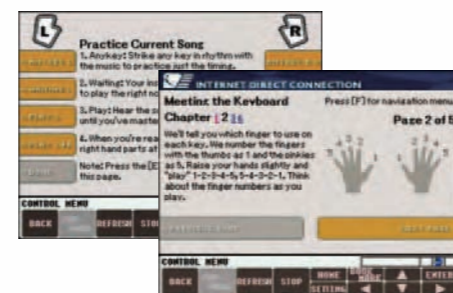

There's nothing more fulfilling than being able to sit down at an instrument and play your favorite music. With a Yamaha keyboard and IDC, you and your entire family can get in on the fun. It's as easy as A-B-C! No matter what your level of experience, IDC lets you find the songs you love, and helps you play them the way you want!

Over
10,000 songs
available.

■ Learning

Learning something new—especially a musical instrument—can be intimidating. Not so with IDC. This unique online service lets you download music that you're familiar with, and makes it exceptionally easy to learn that music—with the convenient Lesson features built into your Yamaha keyboard. Even if you've never played a note in your life, the inspiring sounds and interactive functions will have you playing in no time!

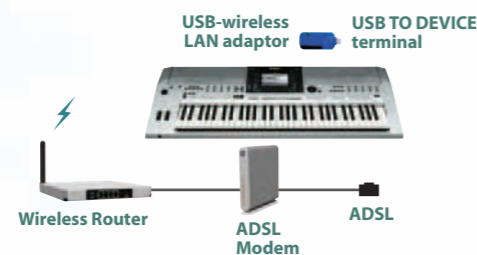

Easily set up the Internet Direct Connection.

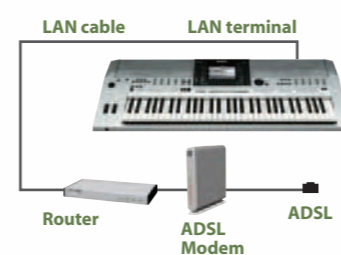

If you have a broadband connection, insert the USB-LAN converter adaptor* into the USB terminal on the instrument (with the power turned off). Turn on the power of the instrument and press the Internet Direct button. The connection is now complete!

* Confirm that your particular USB-LAN adaptor is supported for use with Internet Direct Connection. Check the list of supported devices at music.yamaha.com/idc

Welcome to the world of automatic accompaniment!

Yamaha's Music Finder+ Internet service introduces a great new way to enjoy music.

What is Music Finder+?

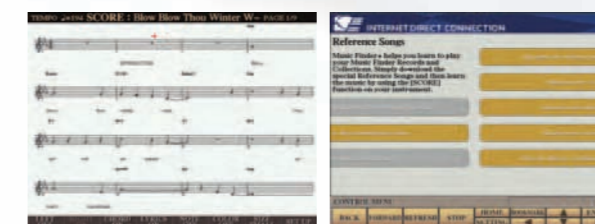

When you want to play a tune, are you ever confused about which musical style to choose or what sounds to select?

At times like this, Yamaha's Music Finder feature supports your renditions with powerful functions. And now, Yamaha is introducing Music Finder+—a new, advanced version of its highly acclaimed Music Finder—with astonishing new capabilities delivered directly to your instrument using Yamaha's Internet Direct Connection (IDC). Music Finder+ incorporates the functions of Music Finder, plus these new features:

1. Free additional online Music Finder 'Records'
2. Free online Music Finder 'Collections'
3. Music Finder 'Performance Guides'

Plus, the new service allows you to update your instruments Music Finder library with real name song titles.

Over
4,000 Records
1,800 Performance Guides
available.

Tyros3

Discover your Creativity

Embark on a new musical journey and discover the creativity inside you. Introducing the Tyros3. This amazing new instrument is filled with authentic sounds, unmatched expressive potential, dynamic accompaniment, extensive recording features, and comprehensive control—yet is remarkably easy to use and play. No matter what your level of musical ability or experience, the Tyros3 can bring out all your latent creative talent—and help you make the music you've always dreamed of making.

Data Storage

Flash Memory

Flash memory is built into the instrument itself, letting you store the song data you've downloaded from the Internet. The stored songs are always available for immediate loading and playback, since the data remains in the instrument even when the power is turned off.

USB Connection

There are two different types of USB terminal.

USB TO HOST

With a USB TO HOST terminal, you can easily and instantly connect the instrument to a computer, by just a single cable. Once you've made connections, you can transfer various data between the instrument and your computer.

USB TO DEVICE

This type is used to connect the instrument to a USB storage device, and allows you to save data you've created to the connected device, as well as load data from the connected device.
