

END OF LIFE PRODUCT DISPOSAL

Yamaha encourages its consumers to properly dispose/recycle unwanted batteries and end-of-life products in accordance to Federal, state, and local regulations.

New York State residents, who own Yamaha DVD players, are required by state law to properly dispose of these products as recyclable electronic waste. Please go to the Electronic Manufactures Recycling Management Company (MRM) website at:

http://www.mrmrecycling.com/locator_ny.htm for more information and instructions.

To obtain information about disposing unwanted, end-of-life products in states not listed above, please contact your local waste disposal provider.
