

# Firmware Update

Connect to a world of music directly from the Spotify app through Spotify Connect, freeing up your phone so you can watch videos and take calls without interrupting playback.

## Free Play

Anyone with a Spotify account – whether free or premium – can enjoy the wireless freedom of streaming their favorite playlists and tunes to any MusicCast-enabled device.

## Sound Quality

All files on Spotify can stream up to 320 kbps, which is MP3 quality. In fact, you can add up to three MusicCast-enabled devices and enjoy MP3-quality Spotify tunes in multiple rooms.

## Go Big in Your Home

Expand your sounds and wireless freedom to every room with link control in the MusicCast app. Immerse yourself in your favorite Spotify tracks simultaneously in every room of your home with MusicCast.
