

WORSHIP SOLUTIONS APPLICATION GUIDE

PORTABLE SYSTEM SOLUTIONS

PORTABLE SYSTEM SOLUTIONS

If you have an on-the-go ministry that meets outside or at temporary indoor locations, or a large ministry that holds off-site events, Yamaha has portable PA systems to meet your needs. These self-contained, self-powered packages are easy to set up, use, transport and store. They're designed for groups of about 250 people or less but you can expand them to host large events or accommodate your congregation's growth.

STAGEPAS 400BT and 600BT

These two flexible products both include a pair of speakers and a mixer with a collection of essential features. The Bluetooth® function gives you the ability to add music wirelessly from a smartphone or tablet. The 1-Knob Master EQ™ and onboard feedback suppressor deliver music and your message clearly to everyone in attendance.

STAGEPAS 1K

The one-piece STAGEPAS 1K is a complete audio system consisting of a speaker array, a subwoofer and a five-channel powered mixer. Once set in place, you can remotely control its settings from an Android or iOS device using the free STAGEPAS Editor app, or stream music wirelessly via Bluetooth®.

MG10XU/12XU/16XU

Yamaha MGXU systems bundle an MG analog mixer, powered DBR speakers, and a powered DXS subwoofer. The mixers include technologies developed by Yamaha for our professional consoles, including studio-quality preamps, powerful digital processing, and rugged, reliable construction. The DBR speakers harness a state-of-the-art Yamaha DSP amplifier and quality components engineered to deliver high-resolution sound at any output level. Conveniently, they connect directly to the subwoofer for rapid setup and tear down.

EMX5/7

EMX systems match a powered Yamaha EMX analog mixer with CBR Series passive speakers and a passive subwoofer. The all-in-one EMX concept ensures that anyone, even those with no audio experience, can be their own sound engineer; all they need to do is plug in a power cable and make a few simple, intuitive connections. The speakers and subwoofer, with their lightweight, durable cabinets, are just as easy to operate, and they provide beautiful, impactful sound quality.

TF Rack/1/3

TF systems combine TF digital mixers with Yamaha DZR Series powered speakers and a DXSXL powered subwoofer. The TF's TouchFlow Operation™ interface allows you to control the action from a touch screen, making it easier than ever to achieve the ideal mix. And, like the other systems on this page, the speakers and subwoofer connect directly for quick, easy setup and teardown.

STAGEPAS PORTABLE PA SYSTEMS

RECOMMENDED PA SYSTEMS

	<u>Stagepas 400BT</u>	<u>Stagepas 600BT</u>	<u>Stagepas 1K</u>
Audience Size	≤100	≤175	≤250
