## Commentary Information and Financial Statements

## 1. Consolidated Management Performance

During the first quarter of the fiscal year (FY2010.3) (hereinafter referred to as "first quarter (three months)"), the economic environment for Yamaha and its consolidated subsidiaries remained severe due to the global recession triggered by the financial crisis. Although there were signs of improvement in the economic climate, corporate performance and the environment for employment remained harsh, and consumer spending declined further.

Amid this operating environment, to cope with the decline in the worldwide demand, the Yamaha Group formed a Management Reform Committee in November 2008 to implement emergency measures to improve performance, including conducting reviews of expenses and paring back on capital investment and events. In addition, Yamaha moved forward with a thorough review of its business operations, while, on the other hand, it selected investments in the development of high-value-added products and investments in growth business domains that will lead the way to the future and concurrently implemented these initiatives from a medium- to long-term perspective.

Net sales during the first quarter (three months) declined $¥ 23.9$ billion (19.3\%) from the same period of the previous fiscal year, to $¥ 99.4$ billion. Sales declined substantially compared to the same period of the previous fiscal year due to the drop in sales in all business segments as well as a decline in sales of about $¥ 8.0$ billion as a result of foreign currency factors.

Profitwise, operating income declined $¥ 5.4$ billion ( $95.8 \%$ ) from the same period of the previous fiscal year, to $¥ 0.2$ billion. The loss before income taxes and minority interests amounted to $¥ 0.6$ billion (compared with income before income taxes and minority interests of $¥ 5.5$ billion in the same period of the previous fiscal year). The net loss for the quarter was $¥ 2.9$ billion (compared with net income of $¥ 1.1$ billion in the same period of the previous fiscal year).

## (1) Performance by Business Segment

## Musical Instruments

During the first quarter (three months), sales of musical instruments declined $¥ 12.8$ billion ( $15.8 \%$ ) compared with the same period of the previous year, to $¥ 68.4$ billion. Among factors resulting in this decline, foreign currency movements accounted for about $¥ 6.3$ billion. On a real basis, after excluding foreign currency factors, sales in this segment were down approximately $¥ 6.5$ billion compared with the same period of the previous year.

By product, sales of pianos in the Chinese market held firm, but in the European market, sales were substantially below the levels of the same period of the previous year. Sales of digital musical instruments experienced a major decline in the Japanese and European markets, and sales of professional audio equipment declined in the North American and European markets, while sales of wind instruments declined, principally in the Japanese market.

Operating income for this segment declined $¥ 4.4$ billion ( $71.0 \%$ ) from the same period of the previous year and amounted to $¥ 1.8$ billion.

AV/IT
During the first quarter (three months), sales declined $¥ 2.6$ billion ( $19.0 \%$ ), compared with the same period of the previous year, to $¥ 11.2$ billion. Foreign currency factors were responsible for about $¥ 1.6$ billion of this decrease, and, after excluding these factors, on a real basis, sales were down about $¥ 1.0$ billion compared with the same period of the previous year.

By product, in the audio products business, sales of front surround system products held firm in the Japanese market but overall sales fell mainly in the North American market. In addition, sales of routers and commercial karaoke equipment were unfavorable.

The operating loss amounted to $¥ 0.5$ billion (compared with an operating loss of $¥ 0.5$ billion for the same period of the previous year).

## Electronic Devices

During the first quarter (three months), sales of this segment were down $¥ 2.8$ billion ( $37.5 \%$ ) compared with the same period of the previous year, to $¥ 4.7$ billion.

By product, sales of sound generators for mobile phones declined owing to the drop in demand.
The operating loss amounted to $¥ 0.5$ billion, which compares to an operating loss of $¥ 0.2$ billion reported for the same period of the previous year.

## Lifestyle-Related Products

During the first quarter (three months), sales were down $¥ 1.7$ billion ( $15.8 \%$ ), compared with the same period of the previous year, to $¥ 8.8$ billion, because of a decline in sales of system kitchens and system bathrooms owing to the substantial decrease in new housing starts.

The operating loss of this segment was $¥ 0.5$ billion (compared with an operating loss of $¥ 0.6$ billion in the same period of the previous year.

## Others

During the first quarter (three months), sales of this segment were down $¥ 3.9$ billion ( $38.3 \%$ ) compared with the same period of the previous year, to $¥ 6.4$ billion.

By product, sales of automobile interior wood components declined. In addition, sales of magnesium molded parts (a business the Company is going to withdraw from in the current fiscal year) also fell.

The operating loss of this segment amounted to $¥ 45$ million, compared with operating income of $¥ 0.7$ billion for the same period of the previous year.

## (2) Performance by Geographical Segment

During the first quarter (three months), sales in Japan amounted to $¥ 57.5$ billion, a $17.5 \%$ decline compared with the same period of the previous year, and the operating loss was $¥ 2.3$ billion (compared with operating income of $¥ 3.5$ billion for the same period of the previous year).

Sales in North America for the first quarter (three months) amounted to $¥ 13.7$ billion, $17.3 \%$ lower than during the same period of the previous year, and operating income was $¥ 0.5$ billion, $6.7 \%$ lower than for the same period of the previous year. Sales in Europe were $¥ 15.0$ billion, $29.0 \%$ lower than for the same period of the previous year, and operating income amounted to $¥ 0.3$ billion, representing a $60.4 \%$ lower than for the same period of the previous year. Sales in Asia, Oceania, and other areas amounted to $¥ 13.2$ billion, a $16.7 \%$ decrease over the same period of the previous year, and operating income was $¥ 1.5$ billion, which was $44.9 \%$ lower than for the same period of the previous year.

## (3) Sales by Region

The ratio of overseas sales to total sales for the first quarter (three months) decreased 1.9 percentage points from the same period of the previous year, to $44.3 \%$.

## Japan

Sales in Japan for the first quarter (three months) decreased $¥ 10.9$ billion ( $16.4 \%$ ) compared with the same period of the previous year, to $¥ 55.4$ billion. Declines were reported mainly for semiconductors, lifestyle-related products, magnesium molded parts, automobile interior wood components, wind instruments, etc.

## North America

Sales in North America for the first quarter (three months) decreased $¥ 2.7$ billion ( $16.3 \%$ ) from the same period of the previous year, to $¥ 13.9$ billion. This was due to lower sales of professional audio equipment, audio products, and certain other products, owing to deterioration in market conditions. After excluding foreign currency factors, on a real basis, sales were down about $¥ 1.4$ billion from the same period of the previous year.

## Europe

Sales in Europe for the first quarter (three months) declined $¥ 6.7$ billion ( $31.1 \%$ ) from the same period of the previous year, to $¥ 14.8$ billion. Sales of pianos, digital musical instruments, professional audio equipment, and certain other products declined because of the deterioration in market conditions. After excluding foreign currency factors, on a real basis, sales were down approximately $¥ 2.8$ billion compared with the same period of the previous year.

## Asia, Oceania, and Other Areas

Sales in these areas for the first quarter (three months) posted a decrease of $¥ 3.6$ billion ( $18.8 \%$ ) from the same period of the previous year and amounted to $¥ 15.3$ billion. Sales, especially those of pianos, remained firm in China, but in other geographic areas, sales of pianos, digital musical instruments, and certain other products declined.

## 2. Consolidated Financial Position

## (1) Assets

Total assets increased $¥ 0.9$ billion ( $0.2 \%$ ) from the end of the previous fiscal year, to $¥ 409.9$ billion.
Of this total, current assets fell $¥ 4.5$ billion ( $2.2 \%$ ), to $¥ 197.6$ billion, and noncurrent assets increased $¥ 5.4$ billion ( $2.6 \%$ ), to $¥ 212.3$ billion.

## (2) Liabilities

Liabilities decreased $¥ 2.2$ billion (1.4\%) from the end of the previous fiscal year, to $¥ 154.9$ billion.
Of this total, current liabilities fell $¥ 6.4$ billion ( $7.1 \%$ ), to $¥ 83.6$ billion, mainly because of a decline in accounts payable-other and accrued expenses. In addition, noncurrent liabilities increased $¥ 4.2$ billion ( $6.3 \%$ ), to $¥ 71.3$ billion, mainly because of the increase in long-term loans payable and provision for retirement benefits.

## (3) Net Assets

Net assets increased $¥ 3.1$ billion ( $1.2 \%$ ) from the end of the previous fiscal year, to $¥ 254.9$ billion. This increase was due to an increase in valuation and translation adjustments compared with the end of the previous fiscal year owing to the increase in the quoted value of available-for-sale securities.

## (4) Cash Flows

During the first quarter (three months), cash and cash equivalents (hereinafter, cash) declined $¥ 6.4$ billion (compared with a decrease of $¥ 38.6$ billion during the same period of the previous year), to a balance of $¥ 36.1$ billion.

## Net Cash Provided by (Used in) in Operating Activities

During the first quarter (three months), cash used in operating activities was $¥ 1.0$ billion, compared with cash used in operating activities of $¥ 16.5$ billion in the same period of the previous year. This was due mainly to a decline in income taxes paid.

## Net Cash Provided by (Used in) Investing Activities

During the first quarter (three months), cash used in investing activities amounted to $¥ 3.5$ billion, compared with cash used in investing activities of $¥ 1.9$ billion in the same period of the previous year, due to cash used for purchase of property, plant and equipment.

## Net Cash Provided by (Used in) Financing Activities

During the first quarter (three months), cash used in financing activities was $¥ 2.4$ billion, compared with $¥ 22.3$ billion cash used in financing activities during the same period of the previous year (owing to purchases of treasury stock during the same period of the previous year).

## 3. Commentary Information on Consolidated Financial Forecast

Consolidated financial forecasts for FY2010.3 were issued on April 30, 2009.
Due to the uncertainty about the future, no revisions were made in the consolidated financial forecasts in the first quarter and they remain unchanged.

Some portions of the content of this document are forward-looking statements that are based on forecasts and plans regarding future developments. Accordingly, actual results and performance may differ from the forecast presented here, depending on risks and uncertainty factors.

## 4. Others

(a) Changes in the state of material subsidiaries during the period (Changes regarding specific companies accompanying changes in the scope of consolidation): None
(b) The adoption of simplified accounting methods and/or special accounting treatment for the quarterly consolidated financial statements:

Simplified accounting methods

1. Method for evaluating inventories

In calculating the value of inventories on a consolidated basis at the end of the first quarter, the Company has omitted on-site inventory inspections and used methods deemed to be reasonable that are based on the value of inventories determined through on-site inspection at the end of the previous fiscal year. In addition, for those inventories whose contribution to revenues and income has clearly diminished, the Company has adopted the method of estimating the net sale value of such inventories and reduced their book value to their net sale value.
2. Method for allocation of cost variances

As a result of the use of scheduled standard prices, etc., cost variances may arise. In the case that cost variances arise, the allocation of such cost variances to inventories and cost of sales was determined by major product using a simplified method compared with year-end annual closing work.
3. Method for calculating income taxes

The amount of corporate income tax, etc., to be paid was calculated by limiting the items to be added and subtracted, and items to be deducted from the tax amount to material items

Special accounting treatment used in preparation of the quarterly consolidated financial statements: None
(c) Changes in principles, procedures, and methods of presentation, etc., in the preparation of the quarterly consolidated financial statements

1. Change in Accounting Standards for Construction Completions and Cost of Completed Construction

The Company has previously applied the completed-contract method for recognizing the revenues for construction contracts. However, beginning with the first quarter of the fiscal year ending March 31, 2010, accompanying the application of "Accounting Standard for Construction Contracts" (Accounting Standards Board of Japan (ASBJ) Statement No. 15, issued by ASBJ on December 27, 2007) and "Guidance on Accounting Standard for Construction Contracts" (Accounting Standards Board of Japan (ASBJ) Guidance No. 18, issued by ASBJ on December 27, 2007), the percentage-of-completion method has been applied for the construction work under contract that commenced in the first quarter of the fiscal year ending March 31, 2010, if the outcome of the construction activity is deemed certain during the course of the activity (based on the percentage of the cost incurred to the estimated total cost to estimate the percentage of completion). Otherwise, the completed-contract method has been applied.

Please note that this change had no effect on profit or loss for the first quarter (three months).
2. Beginning with the first quarter of the fiscal year ending March 31, 2010, Guidance on Determining a Subsidiary and an Affiliate (ASBJ Guidance No. 22, issued by ASBJ on May 13, 2008), has been applied.

Please note that this change had no effect on profit or loss for the first quarter (three months).
