The Company fully complies all aspects of the Corporate Governance Code.

【Disclosure based on the principles of the Corporate Governance Code】
The Company discloses information based on Corporate Governance Code revised as of June 11, 2021.

It is Yamaha’s basic policy to have cross-holdings only to the extent that this is reasonable because it contributes to the Company’s sustainable growth and the enhancement of corporate value over the medium-to-longer term. “Reasonable because it contributes to the Company’s sustainable growth and the enhancement of corporate value over the medium-to-longer term” refers to enhancing the value of our brand, supporting sustainable growth, and ensuring a strong financial base by maintaining stable relationships with companies with which we have important cooperative relationships, business partners, and financial institutions.

Yamaha Motor Co., Ltd. uses the same “Yamaha” brand as the Company. Yamaha Motor Co., Ltd. and the Company have established the Joint Brand Committee, YAMAHA Brand Charter, and Joint Brand Regulations. Along with carrying out various initiatives together, initiatives in furtherance of each other’s sustainable growth are monitored appropriately through shareholdings and the assignment of directors. By building this kind of relationship of monitoring and cooperation with Yamaha Motor Co., Ltd., the Company aims to maintain and enhance the value of the “Yamaha” brand, thereby contributing to the enhancement of the Company’s corporate value over the medium-to-longer term.

The Board of Directors regularly reviews the reasonableness of individual cross-holdings on an ongoing basis and works to reduce cross-holdings based on such verifications as whether the purposes for such shareholdings are appropriate and whether the benefits accruing from these holdings and the risks associated with them cover the cost of capital.

In exercising the voting rights associated with cross-holdings, the decision of how to vote is made comprehensively from the standpoint of whether the resolution enhances the corporate value of the company in question over the medium-to-longer term, whether it is in accordance with our “Basic policy concerning cross-holdings,” and whether it leads to the enhancement of our corporate value over the medium-to-longer term. The Company exercises the voting rights in accordance with such decision.

[Principle 1-7] Transactions with related parties
When engaging in transactions with Directors, Executive Officers, or close relatives thereof, necessary systems are put in
place to ensure that they are not detrimental to the Company or the shareholders’ common interests. With the approval of the Board of Directors pursuant to the Companies Act, the results of related party transactions shall be reported after a transaction is completed.

Evaluations, including evaluations by outside specialists, and analyses based on survey answers and individual interviews

Evaluation of the effectiveness of the Board of Directors based on the results of these analyses as well as deliberation on and materialization of improvements for applicable issues

<Summary of the Evaluation>

Accumulating steady improvement every year, the Company has constructed a governance system with a high degree of perfection as a Company with Three Committees (Nominating, Audit, and Compensation).

The Board of Directors comprises directors with diverse viewpoints and experience, including multiple independent outside directors. Both the scale of the Board of Directors and the ratio of Outside Directors are evaluated as appropriate.

Sincere and constructive discussions are being held regarding major management issues.

The Audit Committee structure is positively evaluated due to the reason that the newly established Audit Officers function effectively.

On the other hand, for further improvement, management issues are raised regarding discussions on the long-term growth strategies, effectiveness of internal whistle-blower system, and clarity of explanatory materials.
In view of these results, the Company will continue to take initiatives toward further improvement to increase the effectiveness of the Board of Directors.

[Supplementary Principle 4-14-2] Policy for training of directors
The necessary training is provided to the Directors on an ongoing basis. In particular, when an Outside Director takes office, opportunities are created to explain the Yamaha Philosophy, corporate governance, the system of our internal rules, and the progress on our medium-term management plan, helping them to gain an understanding of our current situation and an awareness of issues.
In addition, they gain a deeper awareness of management issues by participating in sessions such as the management meeting to review business challenges.

[Principle 5-1] Policy for constructive dialogue with shareholders
In order to have constructive dialogue with shareholders and investors, the Board of Directors appoints a Director responsible. If necessary, due to a request for dialogue from a shareholder or investor, the Director responsible, other Directors, Executive Officers and/or Operating Officers will appear in person to explain matters such as the capital policy or medium-term management plan to shareholders or investors in a clear and easy-to-understand manner.
The Legal Division, IR Department, and Corporate Finance Division will cooperate and assist the responsible Director to ensure that dialogue with shareholders and investors is conducted in a reasonable and orderly manner.
In addition to the respective dialogue with shareholders and investors, the Company offers presentations on its medium-term management plan and quarterly earnings presentations as well as business briefings, facilities tours, and presentations for individual investors. The Company also posts its management plan and the explanatory materials used in earnings presentations on the Company website.
The results of the dialogue with shareholders and investors are reported to the Board of Directors by the Director responsible, Executive Officers, or Operating Officers on a timely basis, and they will be appropriately reflected in the management of the Company, leading to the Group’s sustainable growth and enhancing corporate value over the medium-to-longer term. Additionally, the voting is analyzed for each resolution at the Ordinary General Shareholders’ Meeting, and this is reported to the Board of Directors.
Regarding measures to control insider information, pursuant to the Company’s Disclosure Policy, due consideration is given to controlling insider information, and we endeavor to disclose information in a fair, prompt, and timely manner.
When meeting with shareholders and investors, information is provided after verifying that the information provided does not constitute insider information. The time between the day after the end of each quarter and the date of the earnings release is a “quiet period” during which we refrain from discussing earnings information.

Supplementary Explanation on Related Matters
Amounts of remunerations, etc. paid to Directors and Executive Officers for the Fiscal Year ended March 31, 2022.

- Directors: 7 persons ¥78 million (including Outside Directors: 7 persons, ¥78 million)
- Executive Officers: 5 persons ¥347 million
Notes: The above numbers of Directors include one (1) Director who retired at the conclusion of the 197th Ordinary General Shareholders’ Meeting on June 24, 2021. The total amount of remunerations, etc. paid to the Executive Officers concurrently serving as Directors and the number of such Executive Officers are described in the section of Executive Officers.

Individual amounts and policy regarding the compensation of Directors and Executive Officers have been determined in the Compensation Committee, which is comprised of three Outside Directors and one internal Director. Compensation for Directors (excluding Outside Directors) and Executive Officers will consist of (1) fixed compensation, (2) performance-linked bonuses, and (3) compensation in the form of restricted stock (restricted stock compensation). The approximate breakdown of total compensation of (1), (2), and (3) will be 5:3:2.

(1) Fixed compensation is monetary compensation according to job titles and is paid monthly.

(2) Performance-linked bonuses are monetary compensation according to job titles that is linked with consolidated profit for the period and ROE for the current fiscal year and will be calculated, reflecting the individual's record of performance, in order to motivate individuals to contribute to enhancement of the Company’s performance. These bonuses are paid after the completion of the applicable fiscal year. The individual’s performance will be evaluated based on indicators of performance set by business and function in each area the individual is responsible for.

(3) Restricted stock compensation is share-based compensation according to job titles and is provided at the launch of the Medium-Term Management Plan with the intent of motivating the Directors and Executive Officers to enhance corporate value sustainably and having them share a common interest with shareholders. In order to motivate the Directors and Executive Officers to achieve the Company’s performance goals in the medium term, one-third (1/3) of restricted stock compensation is paid under the condition that an individual remains in the service of the Company for a certain period and two-thirds (2/3) of restricted stock compensation is linked to the Company’s performance. The Company’s performance will be measured using “core operating profit ratio,” “ROE,” and “EPS” as performance indicators, giving equal weight to each of them, as described in the Medium-Term Management Plan. Transfer restrictions shall remain effective until the retirement of Director or Executive Officer or for thirty (30) years from the receipt of restricted stock compensation for the purpose of aligning the interests of the corporate officers with those of the shareholders over a long period after the end of the Medium-Term Management Plan. In addition, a claw-back clause is included that will require the return of all or a portion of restricted shares transferred to officers on an accumulated basis to date, depending on the responsibility of the officers in charge, in the event of serious cases of accounting fraud and/or major losses during the restricted period.

(4) Outside Directors will receive only the fixed compensation.

Revision of Policy for Determination of Compensation for Directors and Officers
Regarding compensation in the form of restricted stock, we will revise the indicators and targets with the start of the new medium-term management plan “Make Waves 2.0”. For evaluation indicators, we will add the classification of non-financial targets and corporate value targets centered on sustainability to the existing financial targets. We will introduce non-financial targets to further motivate efforts to improve sustainable and social value, and corporate value targets to more strongly motivate shareholders to share their perspectives. Financial targets and non-financial targets are indexed by the management targets set forth in the medium-term management plan, and corporate value targets are indexed by the total shareholder return (TSR). The ratio of impact on compensation in the form of restricted stock is as follows.

Financial Targets: Non-Financial Targets: Corporate Value Targets = 50%: 30%: 20%.
