【Disclosure based on the principles of the Corporate Governance Code】

[Principle 1-4] Cross-holdings

It is Yamaha's basic policy to have cross-holdings only to the extent that this is reasonable because it contributes to the Company's sustainable growth and the enhancement of corporate value over the medium-to-longer term. "Reasonable because it contributes to the Company's sustainable growth and the enhancement of corporate value over the medium-to-longer term" refers to enhancing the value of our brand, supporting sustainable growth, and ensuring a strong financial base by maintaining stable relationships with companies with which we have important cooperative relationships, business partners, and financial institutions.

Yamaha Motor Co., Ltd. uses the same "Yamaha" brand as the Company. Yamaha Motor Co., Ltd. and the Company have established the Joint Brand Committee, YAMAHA Brand Charter, and Joint Brand Regulations. Along with carrying out various initiatives together, initiatives in furtherance of each other's sustainable growth are monitored appropriately through shareholdings. By building this kind of relationship of monitoring and cooperation with Yamaha Motor Co., Ltd., the Company aims to maintain and enhance the value of the "Yamaha" brand, thereby contributing to the enhancement of the Company's corporate value over the medium-to-longer term.

The Board of Directors regularly reviews the reasonableness of individual cross-holdings on an ongoing basis and works to reduce cross-holdings based on such verifications as whether the purposes for such shareholdings are appropriate and whether the benefits accruing from these holdings and the risks associated with them cover the cost of capital.

In exercising the voting rights associated with cross-holdings, the decision of how to vote is made comprehensively from the standpoint of whether the resolution enhances the corporate value of the company in question over the medium-to-longer term, whether it is in accordance with our "Basic policy concerning cross-holdings," and whether it leads to the enhancement of our corporate value over the medium-to-longer term. The Company exercises the voting rights in accordance with such decision.

[Principle 1-7] Transactions with related parties

When engaging in transactions with Directors, Executive Officers, or close relatives thereof, necessary systems are put in place to ensure that they are not detrimental to the Company or the shareholders' common interests. With the approval of the Board of Directors pursuant to the Companies Act, the results of related party transactions shall be reported after a transaction is completed.

[Supplementary Principle 2-4-1] Ensuring diversity

Pursuant to the Valuing People pledge in our Promises to Stakeholders, Yamaha endeavors to achieve sustainable growth and enhance the corporate value over the medium-to-longer term by taking advantage of the perspectives and values of our diverse personnel. And, going forward, we will become even more proactive in the furtherance of diversity at the global level.

We have set and are implementing numerical targets such as the multi-nationalization of important posts and the ratio of female managers, and in the future, we will work even more actively to promote diversity on a global level.

Regarding the succession plans for the CEO and other officers’ successors, the Board of Directors oversees appropriately through the system planning and oversight by the Nominating Committee.

[Principle 4-9] Standards and qualities of independence of the independent outside directors

In addition to the requirements for independence established by the Companies Act and the Tokyo Stock Exchange, the Company has established independence criteria.

The Company’s standards for the independence of independent outside directors are:

[Supplementary Principle 4-11-3] Analyzing and evaluating of the effectiveness of the Board of Directors

<Evaluation Process>

Yamaha carried out evaluations, including evaluations by outside specialists using the following processes.

Implementation of survey to Directors regarding the “roles and responsibilities of the Board of Directors,” “structure of the Board of Directors,” “roles and qualities of directors,” “management of the Board of Directors” and “management of each Committee”

Deletion of the question items with consistently high affirmative response rates, and addition of new question items every year.

Evaluations, including evaluations by outside specialists, and analyses based on survey answers and individual interviews

Evaluation of the effectiveness of the Board of Directors based on the results of these analyses as well as deliberation on and materialization of improvements for applicable issues

<Summary of the Evaluation>

Accumulating steady improvement every year, the Company has constructed a governance system with a high degree of perfection as a Company with Three Committees (Nominating, Audit, and Compensation).

The Board of Directors comprises directors with diverse viewpoints and experience, including multiple independent outside directors. Both the scale of the Board of Directors and the ratio of Outside Directors are evaluated as appropriate. Sincere and constructive discussions are being held regarding major management issues.

The Audit Committee structure is positively evaluated due to the reason that the newly established Audit Officers function effectively.

On the other hand, for further evolution, issues are raised regarding further materialization and more lively discussions on the long-term growth strategies that quickly capture changes in the external environment, clarity of explanatory materials, and the speeding-up of the execution of strategies, etc.

In view of these results, the Company will continue to take initiatives toward further improvement to increase the effectiveness of the Board of Directors.

[Supplementary Principle 4-14-2] Policy for training of directors

The necessary training is provided to the Directors on an ongoing basis. In particular, when an Outside Director takes office, opportunities are created to explain the Yamaha Philosophy, corporate governance, the system of our internal rules, and the progress on our medium-term management plan, helping them to gain an understanding of our current situation and an awareness of issues.

In addition, they gain a deeper awareness of management issues by participating in sessions such as the management meeting to review business challenges.

[Principle 5-1] Policy for constructive dialogue with shareholders

In order to have constructive dialogue with shareholders and investors, the Board of Directors appoints a Director responsible. If necessary, due to a request for dialogue from a shareholder or investor, the Director responsible, other Directors, Executive Officers and/or Operating Officers will appear in person to explain matters such as the capital policy or medium-term management plan to shareholders or investors in a clear and easy-to-understand manner.

The Legal Division, IR Department, and Corporate Finance Division will cooperate and assist the responsible Director to ensure that dialogue with shareholders and investors is conducted in a reasonable and orderly manner.

In addition to the respective dialogue with shareholders and investors, the Company offers presentations on its medium-term management plan and quarterly earnings presentations as well as business briefings, facilities tours, and presentations for individual investors. The Company also posts its management plan and the explanatory materials used in earnings presentations on the Company website.

The results of the dialogue with shareholders and investors are reported to the Board of Directors by the Director responsible, Executive Officers, or Operating Officers on a timely basis, and they will be appropriately reflected in the management of the Company, leading to the Group's sustainable growth and enhancing corporate value over the medium-to-longer term. Additionally, the voting is analyzed for each resolution at the Ordinary General Shareholders' Meeting, and this is reported to the Board of Directors.

Regarding measures to control insider information, pursuant to the Company's Disclosure Policy, due consideration is given to controlling insider information, and we endeavor to disclose information in a fair, prompt, and timely manner.

When meeting with shareholders and investors, information is provided after verifying that the information provided does not constitute insider information. The time between the day after the end of each quarter and the date of the earnings release is a "quiet period" during which we refrain from discussing earnings information.

[Action to implement management that is conscious of cost of capital and stock price][Date of update: June 23, 2025]

The Company's financial targets in the Medium-Term Management Plan "Rebuild & Evolve" (FY2026/3–FY2028/3) include ROE, which has been set at a level exceeding cost of shareholders' equity. The plan also declares our goal of improving capital and asset efficiency to rapidly achieve an ROIC surpassing the weighted average cost of capital (WACC), lays out the cash allocation plan, and states our shareholder return policy and the expected amount of returns. As part of each quarter's financial results, we disclose not only the fiscal year-end forecast for ROE and the cost of shareholder's equity, but also the fiscal year-end forecast for ROIC and the WACC, and outline our assessment of the Company's current situation and our strategies for improvement.

With stock price in mind, we take initiatives that will help increase corporate value on a sustainable basis. For example, our officer compensation system includes restricted stock compensation for the purpose of encouraging officers to better share the perspective of shareholders, with the total shareholder return (TSR) being set as one of the evaluation indicators for restricted stock compensation.

We hold more than 300 IR presentation meetings and one-on-one meetings with investors and shareholders annually to have dialogue with them. Going forward, we will have more dialogue with them on our ROE and capital policy and give feedback about the results of such dialogue to the Board of Directors to enhance discussions at its meetings.

For our specific targets and initiatives, see materials and documents posted on our website.

2. Shares under compensation in the form of restricted stock were granted in a lump sum in the 199th fiscal year ended March 31, 2023, the first year of the Medium-Term Management Plan “Make Waves 2.0” as compensation for three (3) business years. The amount of compensation granted is calculated on a pro rata basis over the three (3) years covered by the Medium-Term Management Plan. The amount of compensation stated above is, based on the degree of achievement of the Company’s performance (shown on the page 43), calculated by reducing the reversal of the past year’s expense recording amount from the expense recording amount of the restricted stock compensation for the current fiscal year.

Any company policies in deciding the amount of remunerations or the method for calculating such remunerations

Yes

Disclosure of company policies in deciding the amount of remunerations or the method for calculating such remunerations

Individual amounts and policy regarding the compensation of Directors and Executive Officers have been determined in the Compensation Committee.

Compensation for Directors (excluding Outside Directors) and Executive Officers will consist of (1) fixed compensation, (2) performance-linked bonuses, and (3) compensation in the form of restricted stock (restricted stock compensation). The approximate breakdown of total compensation of (1), (2), and (3) will be 5:3:2.

- (1) Fixed compensation is monetary compensation according to job titles and is paid monthly.
- (2) Performance-linked bonuses are monetary compensation according to job titles that is linked with consolidated profit for the period and ROE for the current fiscal year and will be calculated, reflecting the individual's record of performance, in order to motivate individuals to contribute to enhancement of the Company’s performance. These bonuses are paid after the completion of the applicable fiscal year. The individual’s performance will be evaluated based on indicators of performance set by business and function in each area the individual is responsible for.
- (3) Restricted stock compensation is share-based compensation according to job titles and has been provided as lump sum for three (3) fiscal years at 199 fiscal year which is the first year of the Medium-Term Management Plan "Make Waves 2.0" with the intent of motivating the Directors and Executive Officers to enhance corporate value sustainably and having them share a common interest with shareholders. In order to motivate the Directors and Executive Officers to achieve the Company’s performance goals in the medium term, one-third (1/3) of restricted stock compensation is paid under the condition that an individual remains in the service of the Company for a certain period and two-thirds (2/3) of restricted stock compensation is linked to the Company’s performance. The Company’s performance will be measured using “financial targets,” “non-financial targets,” and “corporate value

targets” as performance indicators. Financial targets and non-financial targets are indexed by the management targets set forth in the Medium-Term Management Plan, while corporate value targets are indexed by the total shareholder return (TSR). The ratio of impact on compensation in the form of restricted stock is planned as follows. Financial Targets: Non-Financial Targets: Corporate Value Targets = 50%: 30%: 20%.

Transfer restrictions shall remain effective until the retirement of Director or Executive Officer or for thirty (30) years from the receipt of restricted stock compensation for the purpose of aligning the interests of the corporate officers with those of the shareholders over a long period after the end of the Medium-Term Management Plan. In addition, a claw-back clause is included that will require the return of all or a portion of restricted shares transferred to officers on an accumulated basis to date, depending on the responsibility of the officers in charge, in the event of serious cases of accounting fraud and/or major losses during the restricted period.

(4) Outside Directors will receive only the fixed compensation.

Revision of the Policy for Determination of Compensation for Directors and Officers

In line with the launch of the new Medium-Term Management Plan beginning in the fiscal 2025, “Rebuild & Evolve,” we review the targets for performance-linked bonuses and restricted stock compensation.

With a view to achieving company growth, we adopt the revenue growth rate as one of the indicators for performance-linked bonuses for Executive Officers.

We continue to use the same performance indicators (financial targets, non-financial targets, and corporate value targets) for restricted stock compensation, but place greater emphasis on corporate value targets to further encourage alignment with shareholders’ perspectives.

Accordingly, we set the weighting of performance indicators for performance-linked compensation as follows.

Financial Targets: Non-Financial Targets: Corporate Value Targets = 50%: 20%: 30%.

The indicators linked to each target are ROIC for financial targets, non-financial targets set forth in the new Medium-Term Management Plan for non-financial targets, and the total shareholder return (TSR) for corporate value targets.
