NEXT STAGE 12
Yamaha Medium-Term Management Plan
April 2016 – March 2019
Corporate Slogan

Sharing Passion & Performance

Corporate Philosophy

With our unique expertise and sensibilities, gained from our devotion to sound and music, we are committed to creating excitement and cultural inspiration together with people around the world.
Management Vision
(Yamaha’s Medium to Long Term Goals)

Becoming an indispensable, brilliantly individual company

Boosting brand power to become a highly profitable enterprise
Business restructuring (sales and production in Japan, electronic devices) produced results, and profits grew sharply as costs were reduced and gross margins improved in the key musical instruments business.

Achievements in Key Business Strategies

### Achievements

- **Increased sales in electronics business domain:**
  FY2013.3: ¥102.1 billion → FY2016.3: ¥151.9 billion  
  (Target: ¥134.6 billion)

- **Boosted cost competitiveness:**
  Cost reduction target: ¥15.0 billion  
  → Projected cost reduction: ¥16.4 billion (gross)

### Issues Remaining

- **Sales growth in China and emerging countries:**
  Delayed operational investment partly due to economic downturn in Latin America, Russia etc.
  FY2013.3: ¥77.1 billion → FY2016.3: ¥109.9 billion  
  (Target: ¥110.2 billion)

- **New business development:**
  Although two companies were acquired through M&A and an internal incubation structure was established, results will take time to emerge.

Yamaha Medium-Term Management Plan
Management Environment

Environmental Factors

(1) Although uncertainty remains over global macroeconomic prospects, in the medium term gradual growth is anticipated.

<table>
<thead>
<tr>
<th>Mature economies</th>
<th>Return to gradual growth path in Europe and North American region once short term financial market adjustments settle.</th>
</tr>
</thead>
<tbody>
<tr>
<td>China</td>
<td>Growth rate will continue to trend downward, but a certain level of economic growth will continue. Rise in average income.</td>
</tr>
<tr>
<td>Emerging economies</td>
<td>Market condition varies by country as steady growth is anticipated in the ASEAN region while Latin America and Russian economy will remain challenging.</td>
</tr>
</tbody>
</table>

(2) IT networks will accelerate links among people, products, and experiences, creating new value and enjoyment.

Market Projections

- The musical instrument market will expand gradually as middle-class disposable income rises in emerging countries.
- Innovative network technologies will create new demand and expand the audio equipment market.

Comfortable Society

Technology that Crosses Over Sound and People

Yamaha's core competencies
Four Key Strategies

(1) Develop products with distinctive individuality

(2) Enhance customer interaction

(3) Continually reduce costs

(4) Strengthen global business platforms

Enriched lives

Comfortable society

Technology that Crosses
Over Sound and People
(1) Develop Products with Distinctive Individuality

Add original value to excellent basic functions and develop products others cannot imitate

Fusion of Technology

Joy  Beauty  Confidence  Discovery

Evaluation technology to scientifically assess human sensitivities and sound recognition

- Mechatronics technologies to express minute movements
- Sensing technologies to accurately track motion
- Materials/analysis technologies to bring out the best qualities in raw materials
- High-quality, easy-to-operate network technologies
- Signal processing technologies for rich sound processing
- Sound source technologies enabling diverse expression

Technology that Crosses Over Sound and People
(2) Enhance Customer Interaction

Forge stronger, broader ties with customers

**Consumer**

Respond to market expansion and diverse needs

- **Expand Sales Channel**
  Increase the worldwide number of contract dealers by 10%
  **Mature markets:** Secure channels through other industries
  **Emerging countries:** Expand from urban to regional areas

- **Promote music popularization activity to suit local needs**
  Join activities with public and corporate sectors
  **ASEAN region:** Promote music education in public elementary schools
  **Latin America:** Support local youth orchestra

**Corporate and B2B Customers**

Develop value we provide to customers as a solutions vendor

- **Strengthen personnel and service bases to improve support to customer**
  Increase number of accounts to audio contractors by 50%
  Increase worldwide number of technical and other staff supporting audio contractors by about 80

- **Expand products and services to meet customer needs**
  Offer new solutions in tune with social changes
  Better reflect customer needs in product development through support activities
  Develop and provide new product offerings in the industrial machinery and components business

Get Closer to Customers
Achieve continuous cost reductions similar to the previous medium-term plan period by reducing manufacturing costs (reorganising production processes, reducing purchasing costs, introducing new processing methods, etc.) and improving productivity of indirect operations.

Achieve ¥8 billion (net) in cost savings over three years

Costs in FY2019.3 estimated at current cost rates

Increase in labor costs at overseas plants

Absorb ¥6 billion cost increase and pursue further manufacturing cost reductions

Reorganisation of production processes

Reduction in purchasing costs

More efficient production

Improve productivity of indirect operations

¥14 billion cost reduction (gross)

¥8 billion cost reduction (net)

FY2019.3 target costs
(4) Strengthen Global Business Platforms

Develop human resources to support global business operations and reinforce infrastructure

Facilitate international careers
- Establish global core positions (approx. 200) to implement global grading system
- Promote cross-border personnel assignment
- Select candidates for the core positions of next generation and promote development program

Optimise IT, logistics, finance and administration functions at the global level
- Establish regional IT headquarters in three regions: Europe, U.S., and Japan (Asia)
  • Establish 24-hour surveillance and service system using resources in the three regions
- Build efficient logistics system
  • Aim for logistic cost reduction through optimising distribution network, improving efficiency of packing and lading, centralizing procurement distribution, and promoting application of preferential tariffs
- Prepare for introduction of International Financial Reporting Standards (IFRS)
  • Aim for improvement in possibilities for international comparability of financial information and uniformity in Group financial information
- Strengthen global support systems of HQ corporate staff
  • Improve management level of regional offices in all countries

Proportion of total sales made overseas: 67%
Overseas business bases: 51 in 32 countries*

Sales growth 20%

Expand product lineups and customer base, and enhance customer support system in onboard device market

- Offer total sound solutions achieving pleasant and comfortable sound targeted at the trend toward vehicles becoming living spaces as connected cars become commonplace
- Develop thermoelectric solutions with a view to creating eco-friendly motorized societies
- Assign design personnel to strengthen response to customers in the U.S.

Develop product for home healthcare market

- Develop new solution that contribute to healthy everyday living by applying Yamaha's sound and sensor technologies

Launch new products into industrial machinery market

- Lead the industry in FPC testing equipment with further enhanced testing capability
- Launch hydrogen-based leak testing equipment
- Expand customer support system in China and Taiwan

Transform the business from a semiconductor manufacturer to a solutions vendor, and, thereby build foundation for growth through expansion in product lineups and customer base
ESG

NEXT STAGE 12
Yamaha Medium-Term Management Plan
E (Environmental)

Promote activities to creating a sustainable society by reducing environmental impact

(1) Reduce environmental impact in business processes

- Use timber sustainably
  - Stricter verification processes on traceability and legal compliance of timber, greater use of certified timber, reforestation activities

- Reduce greenhouse gas emissions
  - Thorough implementation of emission controls by expanding scope to encompass entire supply chain
  - Formulation of emission reduction plan including shift to renewable energy based on provisions of COP21 agreement, etc.

(2) Enhance development of environmentally friendly products and technologies

- Develop environmentally friendly materials
  (develop alternative materials for rare wood, etc.)
  - Development of the world’s first eco-friendly biomass-derived recorders
  - Introduction of lead-free soldering in wind instrument manufacturing
  - Development of a marimba made of glass-fiber reinforced plastic
  - Development of wood-based musical instruments using A.R.E. (Acoustic Resonance Enhancement) wood reforming technology (received a special prize from Japan’s National Commendation for Invention)

- Encourage Yamaha Eco-Products Program*
  *Program to promote environmentally friendly products certified in accordance with original Yamaha standards

- Develop technologies for reducing greenhouse gas emissions
  (thermoelectric devices, hydrogen sensors, etc.)
(1) Enhance development of products and services that address issues facing society

Apply sound-related knowledge and technology, and introduce more universal design products
- Launch of Omotenashi Guide application (sound-based universal support service)
- Application of wearable sensors in the healthcare field
- Launch of instruments with silencing function, including Silent Brass
- One-handed recorder that manually disabled persons can play

(2) Develop regional community-based business

(music popularization activities, cultural events, and corporate citizenship activities)

Resolve social issues through music and contribute to community development
- Support for community revitalization through the Oto+machi project, which helps create connected sustainable communities through music in Japan
- Support for musical education through donation of musical instruments and AV products to migrant workers’ elementary schools in China
- Cooperation and support for the El Sistema music education support project in Venezuela
- Development of musical education programs in public elementary schools, mainly in the ASEAN region

(3) Take systematic initiatives to promote diversity, socially responsible procurement, and respect for human rights

Carry out activities in line with the United Nations Global Compact*
- Introduced a re-employment system for persons who have retired for nursing care, received recognition as a next-generation employer** for expansion of systems for supporting employees who continue to work as they rear children
- Verify compliance with the Yamaha Supplier CSR Code of Conduct (human rights, labor practices, etc.) and request for the corrective action when necessary

*Signed by Yamaha in 2011
**Obtained certification and Kurumin logo mark from Japan’s Ministry of Health in 2008 and 2014
G (Governance)

Continue to improve organizational structures and mechanisms to maintain and advance transparent, high-quality management

(1) Corporate Governance Initiatives

Ensure highly effective operation of the Board of Directors and swift implementation of decisions by separating corporate oversight from execution and strengthening supervisory functions

Membership of Yamaha Board of Directors (as of April 2016)

- Six directors, including three outside directors, two of which are independent outside directors

Key Initiatives

- Identify issues through analysis and evaluation of Board of Director effectiveness and continually improve Board operation
- Further enhance the functional capabilities of supervision and advice from the independent outside directors through enhancing the shared awareness of management issues provided by the company executives, etc.

(2) Initiatives for Strengthening Internal Controls

Received a higher appraisal from external specialists for Yamaha’s internal auditing systems and methods

Improve Yamaha Group corporate governance, including overseas Group companies, as a result of further improvements in quality of internal control systems

In addition to an existing corporate culture with a strong sense of ethics, improve capabilities for dealing with risks, by introducing more advanced risk management structure
Investment and Return to Shareholders

NEXT STAGE 12

Yamaha Medium-Term Management Plan
